## A. INTRODUCTION

### ➤ Central Office

The Department of Health is the Lead agency for health and convenor of all stakeholders to ensure strong collaboration for health promotion and disease prevention and control. Through the DOH, the government formulates and enforces national health policies, standards and regulations. It provides the direction and national plans for health programs and services at all levels of health care.

### ➤ Center for Health Development

The Center for Health Development administers and oversees the implementation of national health policies, standards and regulatory functions, health operations and local health assistance at the regional level. The Local Health Assistance Division (LHAD) of the CHD provides technical and financial assistance to LGUs on local health systems. It oversees the functions of the DOH Representatives. Importantly, LHAD shall ensure proper coordination with other divisions pertaining to local health systems operation,

### ➤ DOH Team in the Province

Under the present organizational set-up of the DOH at the Region, there is a DOH Team in the Province composed of personnel of vertical health programs, DOH Representatives at the provincial, city and municipal levels and other DOH staff working in the province, city and municipality levels and other DOH Team Leader in the province or the Provincial DOH Representative is supervising the said personnel.
