**WHEREAS**, Bohol is still a predominantly agricultural province, with a large majority of its population dependent on agriculture for their livelihood and household income;

**WHEREAS**, the agriculture industry in Bohol has long been beset with many problems, including the inadequacy of necessary infrastructure, particularly the inadequacy of irrigation facilities;

**WHEREAS**, this inadequacy of irrigation and other infrastructure facilities needs to be directly addressed in the light of Bohol's vision to become a prime agro-industrial province in Region VII, and also to address the Provincial Government's goal towards poverty reduction by increasing household and farm incomes;

**WHEREAS**, the proposed Bohol Agri-Modernization Project (BAMP) Package I seeks to address this inadequacy of facilities through the construction of four infrastructure facilities at strategic locations in the Province of Bohol, namely:

1. Bohol Hydro-Irrigation Project (BHIP) Phase 3, covering the improvement of the Malinao Dam;
2. Hibale Agricultural Development Project in Danao, Bohol;
3. Bonot-bonot Agricultural Development Project in Buenavista, Bohol; and
4. Loboc Valley Agricultural Development Project in Loboc, Bohol;

**WHEREAS**, the Korean International Cooperation Agency (KOICA) possesses the technical, financial and institutional capability to assist the Provincial Government in seeing to the realization of this proposed project;

**WHEREAS**, upon examination by this Body of the attached pre-feasibility study the proposed BAMP Package I has been found to be worthy of endorsement to KOICA for possible funding;

**WHEREFORE**, upon proper motion duly seconded, be it resolved by this Body in a meeting duly convened -

**To approve the Proposed Bohol Agri-Modernization Project (BAMP) Package I and endorse it to the Korean International Cooperation Agency (KOICA) for funding and other assistance.**
