

Metrodeck

Keynote

Versatility

Offering you the strength and durability of heavier systems, Metrodeck has a much slimmer profile which means easier handling and a much smaller storage volume.

So you can do more, more easily.

System

Metrodeck is the ideal all-purpose modular staging system: versatile and smart, strong yet easy to handle - and economical too. Flat or raked stages, seating tiers or catwalks, a rostrum for a conductor or a plinth for an art display - the list of possibilities is endless.

Metrodeck is so easy and safe to use that soon everyone is handling it with confidence.

And then you'll wonder how you ever survived without it.

IDEAL FOR

- Creating a truly versatile performance environment
- Venues where storage space is always at a premium
- Those wanting robust equipment that's easy to handle

Technical

Standard specifications

- Frame Steel
- Finish Black powder-coating
- Top 18mm birch ply
